

Let's make...

## Snow Globes!

### Materials Needed

- Baby food jars or other small glass jars with lids
- Hot glue gun
- Glitter
- Water

### How to Make It

1. Wash and dry your jar completely, including the lid.
2. Fill jar with water to within ½ inch of the top. Use cold water; warm water tends to cloud.
3. Sprinkle ½ teaspoon of glitter or “snow” into water. This measurement is based on a medium to large baby food jar. Adjust glitter amount according to the size of the jar being used.
4. Remind children to take a break, to avoid dizziness.
5. Using a hot glue gun, line the inside of the lid with glue.
6. Screw on the lid tightly.
7. Dab lid dry if any water dripped or spilled.
8. Apply a layer of hot glue around the rim of the lid to seal shut.
9. Let stand and dry overnight, with the lid side up.
